

DIGITAL TIMER

To watch a video demonstration visit youtube.com/wrenwane

BUTTONS: Minute(M), Second(S), Start/Stop(ST/SP)

TO PREPARE THE TIMER

1. Remove the plastic protective film from the display.
2. Open the battery compartment by inserting the thumb into the semi-circular indent so that the thumbnail goes below the groove. Push up first (toward the top of the timer) to release the catch and then lift the door away. Alternatively, push the tip of a pen into the groove to release.
3. Insert a single AAA battery with the correct polarity (this is clearly marked on the inside of the battery compartment).
4. Switch on the timer using the on/off button located on the right side of the timer.

TO USE YOUR TIMER TO COUNT DOWN

1. Set the desired time by pressing the minute and second buttons. For longer times you can hold down either button which will speed up the counter. The maximum time is 99 minutes 59 seconds.
2. Press the Start/Stop button to start the countdown
3. When the time has elapsed the alarm will sound.
4. You can stop the alarm manually by pressing the Stop/Start button; doing so sets the timer back to the original setting.
5. If the timer is not stopped manually it will continue to sound for a further 60 seconds.

TO USE YOUR TIMER TO COUNT UP (STOPWATCH FACILITY)

1. Reset the timer to 00:00 by pressing the minute and second buttons together.
2. Press the start/stop button to start the timer counting up.

TO PAUSE TIMER

1. When the timer is counting up or down, press the Start/Stop button once to pause.
2. Press Start/Stop again to resume counting.

TO RESET TIMER

Press the minute and second buttons together, time will reset to 00:00

TIMER PLACEMENTS

1. The timer has two large magnets which will keep it very secured to a refrigerator door.
2. Pull out the retractable stand and place the timer on any flat surface
3. Thread some string through the hook and hang on the kitchen wall.
